DETAILED ACTION

Allowable Subject Matter

1. Claims 1, 5-30, 32-56, 58-86 are allowed.
2. The following is an examiner's statement of reasons for allowance: the limitation of "the payload envelope being an augmented synchronous payload envelope (SPE) having a payload capacity that is expanded relative to a standard SONET/SDH frame by an amount sufficient to accommodate the PM information" has not been found in combination with the remaining limitations of the independent claim. On page 20 of the arguments included in the amendment, applicant argues "because augmenting the SPE defies widely held assumptions about the invariability of the SONET frame standard, it is respectfully submitted that the claimed invention is not obvious to a person of ordinary skill in the art of SONET." The examiner is persuaded by especially this and also by the remainder of the arguments beginning on page 19, second full paragraph.
3. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
